LOVE Approach Ultrasound Clinical (held quarterly)
 Connecting the technical needs and the spiritual needs of those working in pregnancy help, this first-of-its-kind training is held in two parts: First, students complete an online didactic ultrasound training through Heartbeat International's Academy which meets the Association of Women's Health Obstetric and Neonatal Nurses (AWHONN) guidelines. Next, students come on-site to complete an in-person scan lab experience which provides the environment needed to complete the required scans on women. By combining the technical, practical, and spiritual elements into one pregnancy help medical training, nurses will work towards being fully equipped and ready to scan within their center.
