

WAS BORN TO LOVE

**LOVE COVERS
MULTITUDE OF SINS**

**REFUGEES WHO
FOUND JESUS**

EVERYTHING BEGINS WITH LOVE

We were born to love

The trust was built in crisis and the seeds of truth were planted in love. Mothers joyfully came to special event we organize for them. We use every good opportunity to water the seeds, to teach and lead them deeper into the kingdom. This event we called “Everything Begins with Love”. We invited mothers who had been our clients year ago. We encouraged mothers to be active participants not just observers. There was many songs, poems. All about love. Love always inspired people. Love in all its expressions: toward God, children, mothers, nature, friends, spouses. We had a special guest author and singer. It was amazing time.

That gave new hope. Many mothers parent their children alone.

That was unplanned. She thanks now.

Olga was searching for us. Last time she visited center 14 years ago. At that time center was is different location . She came to our office with thankful heart. She recognized our faithful volunteer Marina. Olga said she had been our client with pregnancy and were looking for abortion, she saw our advertising in metro and came to the center. As result she kept her pregnancy, **her daughter is 14 years old now**. Olga is sociologist now. What was not planned by her turned to be the best in her life, her precious daughter. She said you recognized her value back in 2003, and put this thought in my mind, that this child is precious and God designed her. That brought such a hope in my heart. It didn't turned to be like you said, it turned to be even better. Few years after she chose to get education of psychologist to help people like she was helped

Refugees who found Jesus

This year **118 women refugees** excepted Christ as their Savior. What enemy meant for destruction the Lord in his love and mercy turned to be salvation. In the history we had similar example. We read the stories in Bible about Israel, when they were sent into exile to Babylon. The Lord compared those in exile with figs, good figs. Through the prophet he gave command to them to build houses, to marry, to give birth to children and do all for the cities he sent them to to prosper, so they could prosper as well. In his plan He knew it was not for a short time exile. For the third year we serve pregnant mums who came from the war zone on the East part of Ukraine and were in crisis pregnancy.

We created classes for them "The power of change" and we teach them to set goals, to plan and build life, instead of staying in victim mentality. We teach these mums to put their trust in the Lord, not in government or people, for the Lord has plan for them, plan for good, so they would have hope and future.

The power of change

It is amazing to see how pastor joined the work in the center, recognized this field for share the gospel, while answering the needs of these young women in crisis. It is great privilege to be an agent of hope and love.
